Quality and Craftsmanship

A classic collection with shaker styling, our Marlborough range incorporates units with five piece doors which are finished with adjustable soft close hinges.

Range

The complete Marlborough range is available in three hand painted finishes, cotton white, cobblestone and charcoal. Both of the luxurious freestanding 1200mm units can be topped with either a single or double basin sitting under a honed marble or solid surface worktop. The 600mm freestanding units also have the option of honed marble or solid surface worktop, while the 1000mm unit has the additional option of a honed granite worktop.

Handles/Knobs

All units are fitted with chrome knobs and handles as standard, however white porcelain knobs are available to purchase separately should you wish to give your units a different look.

Secondary Storage and Illuminated Mirror

A coordinating tallboy features a soft close reversible door for left or right hand opening. The above-basin cabinet incorporates a single sided mirrored door, which is reversible, and two adjustable glass shelves. The illuminated mirror has an infrared sensor for touch-free activation and a heated demister pad. Alternatively, choose one of the three sizes of traditional bevelled bathroom mirror, also with a practical heated demister pad. Then add wall lights to give a more opulent style.
