

LAURA ASHLEY

A bathroom scene featuring a white pedestal sink on a light-colored vanity unit. A white towel hangs on the left, and a wicker basket sits on the floor. The wall has blue tiles and a mirror cabinet above the sink.

BATHROOM COLLECTION

BATHROOM COLLECTION

Laura Ashley takes its first foray into the world of bathroom design in 2013, with the launch of a collection which includes stunning sanitaryware, bathroom furniture, mirrors, cabinets and taps.

The collection features furniture hand painted in soft greys and off white or constructed in solid oak, with worktop

options including honed marble and granite. Three sanitaryware ranges are introduced, incorporating basins and WCs spanning classic and contemporary styles. Finally, from the seriously contemporary open spout design to more traditional styling, our premium tap collection has been developed to coordinate perfectly.

DESIGN STORY

To create this collection Laura Ashley teamed up with experts from the bathroom industry.

Two years later, our combined forces have come up with a range of bathroom products which are beautifully designed, well considered and full of thoughtful details. That means the Laura Ashley Bathroom Collection is second to none.

MARLBOROUGH

Quality and Craftsmanship

A classic collection with shaker styling, our Marlborough range incorporates units with five piece doors which are finished with adjustable soft close hinges.

Range

All Marlborough pieces are available in two options - solid oak with real oak veneered panels or hand painted cobblestone finish. Two distinct basin units are available - a 600mm door unit with ceramic basin and a luxurious 1000mm unit finished with a worktop in honed marble or granite and topped with a ceramic vessel basin.

Handles/Knobs

Whilst both unit sizes are fitted with chrome knobs and handles as standard, white porcelain knobs are available to purchase separately should you wish to give your 600mm unit a different look.

Secondary Storage and Illuminated Mirror

A coordinating tallboy features adjustable shelves and a reversible door for left or right hand opening. The above-basin mirror cabinet incorporates a single sided mirrored reversible door and two adjustable glass shelves, whilst the illuminated mirror has an infrared sensor for touch-free activation and a heated demister pad.

Few bathroom ranges can boast Artisan's loyalty to traditional cabinetry techniques and natural wood, whilst nodding towards contemporary, Scandinavian design. Craft and composition are perfect bedfellows in this range.
