

# TM3185

The ISEKI range of compact tractors are great all-round machines for both private and professional users. The TM3185 is ISEKI's most compact tractor with a 16hp engine, four wheel drive, power steering and compact dimensions, making it the ideal workhorse for restricted environments.

The tractor features low noise levels due to maximum power at low rpm. Its sturdy front and rear axles are built to cope with demanding situations. Four-wheel drive with differential lock and rear PTO. An optional front loader is available.
