Spree[™], a completely natural movement.

New technologies and the use of multiple devices throughout our work day has changed our behaviors and how we perform tasks. A desire to move naturally and comfortably between postures requires improved support and freedom of motion while seated.

Stretch back and experience Spree. Designed to fully support in multiple positions, Spree allows you to recline comfortably while feeling fully embraced by the wide lumbar area. Shoulders and arms are free to shift and twist in any position.

Spree offers a breathable mesh or fully upholstered back option with a contoured padded seat to create the perfect blend of comfort and design. Spree mesh is available in eight colors and can also be upholstered in your choice of many fabrics and leathers.

Spree is Level 3 and Greenguard certified, meaning significant steps towards LEED status. Manufactured in an ISO 14001 facility and backed by a lifetime warranty.

Arm features

30° swiveling armcaps. 15° inward and outward.

Arm height adjustment

Wide Urethane armcap. Arm reclines with back movement.

Options

Black (BLK) Nylon base standard.

Optional Polished Aluminum base.

An intuitive framework

Spinal alignment shifts subtly so the sitter slightly changes position throughout the day. Disk compression is released by the tilting movement.

Spree tilts in a smooth gliding motion in a two to one synchronized movement. This allows the angle between the torso and the thighs to open up.

Back of the seat slides rearwards and reclines when tilting, so the front of the seat does not lift and put pressure behind the knees.

'Soft Descent' pneumatic cylinder on all models allows gentle and accurate seat height adjustment.

Overall Depth	25"/635mm
Overall Width	26"/660mm
Overall Height	39"/991mm
Seat Height Adjustment	16-20"/406-508mm
Seat Depth	15-16.5"/381-419mm
Back Width	15.5"/394mm
Back Height	20"/508mm
Arm Height	7-11"/178-279mm

Seat Depth
The front edge of the seat can be rolled to adjust seat depth to match the user's leg length.

Side activated tilt-tension
Five clicks to select the right tension for an individual's body weight.

Colors unlimited
