TECHNICAL FEATURES

DESK TOPS

38mm thick melamine particleboard (washable, scratch resistant and non-reflective); 2mm thick straight anti-shock ABS edges matched with the melamine finish; 45° mitred joint between the top and the panel leg; tops are connected to the legs with 90° screws.

PANEL LEGS

38mm thick melamine particleboard (washable, scratch resistant and non-reflective); 2mm thick straight anti-shock ABS edges matched with the desk top; 45° mitred joint between the panel leg and the top; legs are connected to the top with 90° screws. Legs are equipped with adjustable and stability steel feet (0-20mm) with scratch resistant ABS cap.

MODESTY PANEL

18mm thick melamine particleboard (washable, scratch resistant and non-reflective) with 0,4mm paper edges matched with the melamine finish.

STRUCTURAL RETURN

38mm thick melamine particleboard (washable, scratch resistant and non-reflective); 1,5mm thick straight anti-shock ABS edges matched with the melamine finish; 45° mitred joint between the top and the panel leg; top and panel leg are connected 90° screws. Legs are equipped with adjustable and stability steel feet (0-20mm) with scratch resistant ABS cap. CPU holder in pickled folded metal sheet 3mm thick lacquer with epoxy powders; cable tray in extruded aluminium 30cm W. with lift-up flap.

STORAGE COMPARTMENT

This unit is made of melamine particleboard 18mm thick in matt finish, scratch resistant, non-reflective and washable. It has a lift-up cable tray on the upper side in extruded aluminum. The back is available in two versions: a) melamine particleboard matt finish 18mm thick, scratch resistant, non-reflective and washable, anti-shock ABS edge 1,5mm thick matching the worktop finish; b) 1,5mm thick sheet steel powder coated polyester matt finish, silk touch effect, fingerprint and scratch proof. The storage compartment has a shelf for bags and a pedestal w/3 box drawers + 1 pen tray.

CREDENZA

The credenza is in melamine particleboard 18mm thick matt finish, scratch resistant, non-reflective and washable. It has a lift-up cable tray on the upper side in extruded aluminum. The back is available in two versions: a) melamine particleboard matt finish 18mm thick, scratch resistant, non-reflective and washable, anti-shock ABS edge 1,5mm thick matching the worktop finish; b) 1,5mm thick sheet steel powder coated polyester matt finish, silk touch effect, fingerprint and scratch proof. The credenza has a shelf, a pencil tray and a sliding door in particleboard 18mm thick in melamine, matt finish, non-reflective and scratchproof with handle made of extruded aluminum, powder coated polyester white matt finish; the pencil tray (fixed under the top) has full extension metal guides.

PEDESTALS (optional with STRUCTURAL RETURN, include with STORAGE COMPARTMENT)

The carcass of the pedestals and the drawer fronts are in melamine particleboard 18mm thick, matt, scratch resistant, non-reflective and washable; tops and fronts are edged on 4 sides with 1,5mm shock-resistant ABS. Pedestals (cm 58H) with three drawers are mounted on revolving 360° nylon wheels, with brakes; the higher pedestals (cm 58,5H) have in addition the pencil tray drawer and they have recessed underneath revolving nylon wheels without brackets. All pedestals are equipped with lock and folding key to prevent accidents. The inner parts of the drawers are in melamine particleboard or (optional) in metal painted with epoxy powders; they can be equipped with pen tray in plastic and/or metal dividers (only metal pedestals). The guides are in metal with high sliding wheels with stop, to avoid the drawer comes out accidentally; they can have the "Soft-closing" mechanism (as optional). Standard extension guides. The guides are in metal with high sliding wheels with stop, to avoid the drawer comes out accidentally; they can have the "soft-closing" mechanism (as optional). Standard handles are in metal white finish style Zen.

MEETING TABLES TOPS

Tops and perimeter bands 30mm thick in melamine particleboard (washable, scratch resistant and non-reflective), 2mm thick straight anti-shock ABS edges matched with the melamine finish; 45° mitred joint between the top and the band, connected with 90° screws. Tops are equipped with cable tray in extruded aluminium 45cm W. with lift-up flap that can be opened in both directions.

MEETING TABLES MELAMINE LEGS

30mm thick melamine particleboard (washable, scratch resistant and non-reflective); 2mm thick straight anti-shock ABS edges matched with the melamine finish; 45° mitred joint connected with 90° screws. Legs are equipped with adjustable and stability steel feet (0-20mm) with scratch resistant ABS cap and standard cable port hole 60mm diameter with a ABS cap.

MEETING TABLES CLOSED METAL LEGS

They are made of steel 3mm thick with a trapezoid shape section 94x30mm. They can be powder coated polyester matt finish, scratchproof and finger print proof or polished chrome, equipped with adjustable feet (0-20mm with scratch resistant ABS cap). Beams are made in steel with rectangular section 100x40mm and 1,5mm thick, they are lacquered with epoxy powders and linked to the legs through screws.

CABLE MANAGEMENT

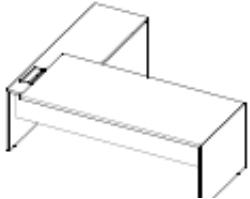

Cable grid are in painted steel (W.15cm and H.7cm) silver finish, held up by supports, lacquered with epoxy powders. Supports allow the unfastening of the grid in order to insert cables into it. The vertebra for the vertical cable management is made in opaline transparent ABS. Thanks to its supports the vertebra can be linked to tops and cable grids.
