Luna wood counter

Total height of counter: 1117 mm

Working height from desktop to reception top: 385 mm

Working height under top: 695 mm

- **Work tops:** made of wood fibre panels with melamine lining total 25 mm thick, scratch-resistant finish; ABS edge, 20/10 thick.

- **Finishes:** dark oak, light oak, light cherry (with open pore finish) and aluminium. Tops are deep 750 mm are specifically shaped for cable passage.

6 desktops shapes: straight tops L.100 and L.160, 2 curved 60° tops and 2 curved 90° tops (internal and external)

- **End side panels:** same specifications as work tops.

- **Reception tops:** deep 32 cm, in satin-finish tempered glass, 12 mm thick, with rounded perimeter edges, fastened to the carcass with steel plates.

Glass tops are supported by a special shaped metal plate in aluminium colour: when shared it connects the tops to the counter front panels, at the end, it connects the top to the end side panel.

- **Front panels:** in curved plywood, 18 mm thick, faced on both sides with laminate, 0.7 mm thick. Finishes: dark oak, light oak, light cherry or aluminium.

Concave, convex and straight units with an aluminium colour PVC edge, 20/10 thick.

They are decorated on the visible side with 3 horizontal extruded profiles in PVC with H. 3.5 mm in aluminium colour, with a distance of 25.7 cm in between.

They are joined at the top with an aluminium finish metal bracket and at the bottom, with a metal foot in aluminium finish, for joining the panels and adjusting height to +/- 5 mm.

- **Ducting/electrical connections:** optional cable tray in folded steel is available to be positioned under the top, 12/10 mm thick, painted with epoxy powder aluminium finish; vertical cabling provided by optional ABS vertebra.

- **Tambour door unit - cabinet** (meas. W. 1000 x D. 575 x H. 695 mm):

Carcass: Made of wood fibre panels with melamine lining total 20 mm thick, scratch-resistant finish aluminium colour with ABS edge, 1 mm thick.

It is equipped at the top with two compartments, measuring W. 380 x H. 245 mm where it is possible to fit up to 4 optional metal drawers, and at bottom with compartment measuring W. 780 x H. 365 mm, equipped for an optional hanging file frame. Tambour doors are in aluminium finish, equipped with recessed handles and a total locking device with two keys, one foldable. The cabinet can be positioned under the top with screws, and it comes with adjustment feet.

- **Modules for the physically impaired** H 69.5 cm:

1 module curved at 60°

1 straight model L100

The modesty panel is recessed 25 cm with respect to the work top, to facilitate access by the user.

Both modules can be placed either at the end or shared between two worktops. Same finishes as standard module.

Drawer units

- **Structure:** particle board with melamine covering, 18 mm thick.

- **Tops and drawer fronts:** 18 mm thick, with ABS edges 20/10 thick. The internal drawer is 12 mm thick, with PVC coating. Metal runners. Full-closure lock with double bending key and ABS key cover. Nylon castors. The file sorter is equipped with a frame 33 or 39 mm thick for storing folders. Handles with aluminium finish and 128 mm thick. The file sorter drawer unit on castors is equipped with a 5th non-tilt castor.

Metal drawer units

The drawer unit is entirely made of first class sheet steel, 10/10 mm. thick: one piece for all vertical body; 20/10 mm reinforcements under top and at base; epoxy powder finish. Invisible handles have been created at the sides of the drawer that add a modern and functional touch.

The drawer unit is assembled on 4 black nylon swivel castors with high resistance to bumps. The drawers are assembled on slides with nylon rollers with stop device.

The drawer unit is provided with standard anti-tilting system and simultaneous locking of all drawers. For the file drawer version, a 5th roller has been inserted and the file frame is provided with telescopic guides for full escape function. A stationery tray has been inserted, as standard, in the first drawer. Aluminium finish.

Luna methacrylate version

Total height of counter: 1130 mm

Working height from desktop to reception top: 385 mm

Working desk top height: 720 mm

- **Work tops:** made of wood fibre panels with melamine lining total 25 mm thick, scratch-resistant finish aluminium colour; ABS edge, 20/10 thick.

Tops are deep 750 mm and are specifically shaped for cable passage.

3 desktops shapes: Straight top L. 100 and 2 curved 60° tops (internal and external)

- **End side panels:** made of wood fibre panels with melamine lining total 25 mm thick, scratch-resistant finish aluminium colour; ABS edge, 20/10 thick. Equipped with adjustable feet to H. +/-5 mm.

End side panels are equipped with aluminium finish profile for methacrylate front panel insert and are

fixed to work tops with specific brackets.

- **Reception tops:** made of wood fibre panels with melamine lining total 25 mm thick, scratch-resistant finish aluminium colour; ABS edge, 20/10 thick. Depth 320 mm.

- **Reception counter structure:** front panels are held by vertical tubular steel uprights, diameter 40 mm, painted with epoxy powder aluminium finish, equipped, at the upper end, with a plate for fastening reception tops, and, at the bottom, with adjustment feet to H. +/- 5 mm.

Desk tops are connected and held by conical column, D. 50 mm, painted with epoxy powder aluminium finish with adjustment foot to H. +/- 5 mm. The column must always be positioned between 2 tops, and for 60° and 90° external units also in the middle of the top.

- **Front panels:** in methacrylate, 4 mm thick, in the following colours: white, smoky grey, blue and green. These are joined by an extruded profile in aluminium finish W. 25 mm then connected to the metal upright.

- **Cable management:** optional cable tray in folded steel is available to be positioned under the top, 12/10 mm thick, painted with epoxy powder aluminium finish; vertical cabling provided by optional ABS vertebra.

- **Tambour door unit - cabinet** (meas. W. 1000 x D. 575 x H. 695 mm):

Carcass: Made of wood fibre panels with melamine lining total 25 mm thick, scratch-resistant finish aluminium colour with ABS edge, 1 mm thick.

It is equipped at the top with two compartments, measuring W. 380 x H. 245 mm where it is possible to fit up to 4 optional metal drawers, and at bottom with compartment measuring W. 780 x H. 365 mm, equipped for an optional hanging file frame. Tambour doors are in aluminium finish, equipped with recessed handles and a total locking device with two keys, one foldable. The cabinet can be positioned under the top with screws, and it comes with adjustment feet.

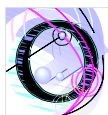

Dado

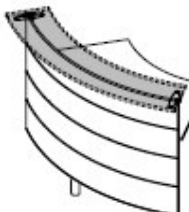

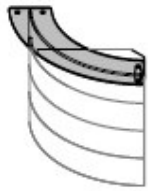

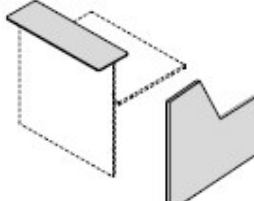

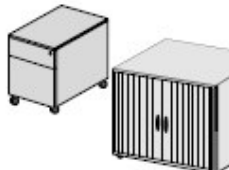

- **Carcass:** Made of wood fibre panels with melamine lining total 20 mm thick, scratch-resistant finish aluminium colour with ABS edge, 1 mm thick.

- **Wood doors:** 18 mm thick for wood finishes, with ABS edges, 20/10 thick; with aluminium colour finish 20 mm thick. Handle with aluminium finish. Optional locking kit.

- **Methacrylate doors:** with frame in natural anodized aluminium profile with 18x20 cross-section, cut to 45°, and in methacrylate, 4 mm thick, in blue, green, white or smoky grey. Handle with aluminium finish. Lock not available.

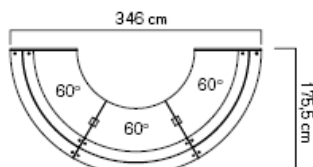

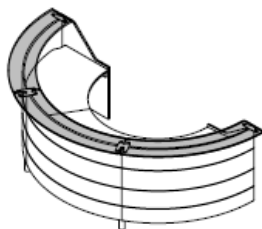

- **Glass doors:** anodized aluminium frame with 18x20 cross-section, 45° cut and tempered etched glass, 4 mm thick.
