FAQs

My seat keeps coming loose, how can I fix it?:

The fixings may require considerable tightening to secure to your pan. Although a tool is included, an adjustable spanner can be used to further tighten the fixing nuts. For bottom fix, as the fixings settle in they may require periodic re-tightening, particularly after initial installation.

Ensure all parts are in the correct location. Refer to instructions for more information.

Why has my seat discoloured?: This may be due to cleaning products used, refer to instructions for more information.

Which Pans will this seat fit?

This seat will fit toilets from a variety of manufacturers, including:

Pura: Urban
Rak: Series 600
Tavistock: Structure
R2: Mini
Vitra: S20

This seat is a close fit for the following sanitaryware ranges:

Roca: Dama - N
Ideal Standard: Tonic II
