

## CABINETS & MIRRORS

---

Complete your bathroom with a stylish cabinet or mirror from our design-led collection. Using a cabinet can help create a calm, clutter-free space. Choosing an illuminated mirror will help enlarge even the smallest of spaces, reflecting light and brightening your day. A host of useful features such as Bluetooth® wireless technology, heated demister pads and integrated recharging sockets will make you wonder how you ever managed without.

A deluxe recessible cabinet offering lots of luxurious yet practical features. Bright LED lighting is combined with a dimmable on/off infrared sensor and adjustable light temperature from warm white to daylight white. A concealed recharging socket makes Nook a cabinet that fits any bathroom style.

# NOOK

**Nook Single Door Cabinet with Integrated LED Lighting**  
Aluminium  
500(w) x 700(h) x 117(d)mm  
47mm depth when recessed. Fits recess 460(w) x 660mm(h)  
NO50ALC £620.00

**Nook Double Door Cabinet with Integrated LED Lighting**  
Aluminium  
650(w) x 700(h) x 117(d)mm  
47mm depth when recessed. Fits recess 610(w) x 660mm(h)  
NO65ALC £705.00

## Dimmable & Light Temperature Changing

Adjust the intensity & warmth of light to suit the task in hand & time of day.

Kick-start your day with a bright, invigorating light. Then choose a natural light to apply make-up and a dimmer, warm light for late evening tasks.

Light temperature ranges from 2700K (warm white) to 6000K (daylight).

## FEATURES

### Recessible or Surface Mounted

Nook cabinets have the option of being surface mounted or recessed into a wall for a sleek contemporary look.

### Energy Saving Adjustable Lighting

With integrated diffused LED lighting around the frame, Nook cabinets create a bright practical light. The dimmable infrared sensor allows you to adjust both the light intensity and warmth.

### Recharging Socket

Nook cabinets also feature a highly useful concealed recharging socket.

### Anodised Aluminium Construction

Solid, robust aluminium-bodied construction makes your Nook cabinet hardwearing, rust proof and easy to maintain.

### IP44

Our cabinets have been designed and independently tested for compliance with electrical equipment safety regulations. Cabinets which are IP44 water resistance rated are suitable for use in zones 2 and outside zones in the bathroom. Please see the diagram on page 241 which illustrates zones within a standard bathroom.

SL44AL

£303.00

**Sleek Double Door Cabinet  
with Integrated LED Lighting**  
Aluminium  
650(w) x 650(h) x 136(d)mm

SL60AL

£372.00

## FEATURES

### Energy Saving Functional Lighting

With integrated diffused LED lighting on the sides, Sleek cabinets produce useful task lighting.

### Recharging Socket

Sleek cabinets feature a highly useful recharging socket, suitable for electric shavers and toothbrushes, conveniently hidden away in the cabinet.

### Adjustable Shelves

Sleek cabinets have two adjustable shelves, providing ample storage for all your bathroom products.

### Anodised Aluminium Construction

Solid, robust aluminium-bodied construction makes your Sleek cabinet hard wearing rust proof and easy to maintain.

### IP44

Our cabinets have been designed and independently tested for compliance with electrical equipment safety regulations. Cabinets which are IP44 water resistance rated are suitable for use in zones 2 and outside zones in the bathroom. Please see the diagram on page 241 which illustrates zones within a standard bathroom.

As the name implies, Sleek cabinets have minimalist styling with side illumination, creating a simple contemporary look. A concealed recharging socket also adds to its practicality.

# MIRRORS

## FEATURES

### Bluetooth®

#### Bluetooth® Wireless Technology

Integrate music seamlessly into your bathroom with an LED illuminated mirror with **Bluetooth®** wireless technology.

### LED Lighting

We use latest LED technology in many of our mirrors to great effect. This not only looks stunning but provides a bright, practical task light with energy saving benefits.

### Infrared On/off Switch

A safe and easy to use infrared on/off switch lets you activate lighting without the need to touch the mirror. Simply move your hand in front of the sensor to activate.

**Important:** When mounting mirrors with infrared switches, the sensor must be at least 150mm from an adjacent wall or obstruction to ensure the switch can function properly.

### Heated Demister Pads

Heated demister pads heat the mirror to a few degrees above room temperature within 2-3 minutes, preventing the mirror from misting in even the steamiest of bathrooms.

### Ambient Lighting

For additional mood lighting in the bathroom, stunning effects are created with ambient lighting.

### Light Temperature Changing

Adjust the intensity and warmth of light to suit the task and time of day. Kick-start your day with bright, invigorating light. Then choose a natural light to apply make-up and a warmer light for late evening tasks.

-  Light temperature ranges from 2700K (warm white) to 6000K (daylight).
-  Some mirrors are also dimmable as well as light temperature changing. Look out for the icon.

### Tapered Body

Our mirrors with a tapered body profile have an elegant slimline look which makes them appear to float on the wall.

### Recharging Socket

An integrated recharging socket, suitable for electric shavers and toothbrushes.

### IP44

Our mirrors have been designed and independently tested for compliance with electrical equipment safety regulations. Mirrors which are IP44 water resistance rated are suitable for use in zones 2 and outside zones in the bathroom. Please see the diagram on page 241 for further information.

All features do not apply to every mirror. See individual details on each mirror for more information.

## MUSIC MIRRORS
