The Match Collection

If it's a sleek minimal solution for a small space you need, then look no further than Match. A basin unit cleverly paired with a back to wall unit, topped by an isocast basin with integrated worktop for a seamless contemporary look.

MATCH

FEATURES

Unit

A single compact one metre unit which incorporates a 500mm basin unit and a 500mm back to wall unit. Available in two contemporary cross-cut style textured wood finishes as well as a choice of clay or gloss white, it is set off by touches of chrome on the discreet door handles and toilet panel trim. Installation is very easy, with no cutting required to fit the basin. We recommend use of the Tavistock Vortex cistern (see page 134).

Isocast Basin with Integrated Worktop

At just one metre long, the Match basin with integrated worktop area is extremely practical. It is manufactured using Isocast, a mineral substrate topped with a tough resilient gelcoat to give a glossy finish which is both durable and easy to clean. The look is seamless and modern. A depth of 380mm makes it very space efficient and it is available either left or right-handed to suit your room layout.

10 Year Guarantee

CREATING YOUR ARRAY BATHROOM

The key to our contemporary modular Array range is its flexibility. The core units can be put together in a wide variety of configurations, giving you many different basin unit options. The choice is yours - from a single wall hung basin unit, with or without open storage, to a luxurious 1200mm 4 drawer 'his and hers' design.

Isocast worktops are available in 600, 900 and 1200mm lengths and are supplied uncut so that they can be prepared for the

correct positioning of either basin option on installation.

There are two types of drawer unit, one of which has a cut-out for plumbing which should always be used directly underneath the basin. The other optional drawer unit, without cut-out, can be used either stacked underneath or alongside if desired to combine to make a double drawer unit. Alternatively use it with a 300 or 600mm open storage unit to give a modern look

which is just that little bit different. These open units have a glass shelf which adds to the contemporary styling.

The coordinating wall storage unit can be used left or right handed.

For an overview of the variety of configurations possible when using Array see overleaf on pages 56 and 57.
